

Icy Strait Point, Alaska

Nearby Alaska's largest Tlingit village exists a uniquely Alaskan place - Icy Strait Point.

Hoonah, meaning "village by the cliff," is home to the Huna Tlingit who have occupied this area for thousands of years. Local legend tells how they were forced from their ancestral home in Glacier Bay by advancing glaciers, resulting in their relocation to and settlement of Hoonah.

In 1912, the Hoonah Packing Co. built a large cannery one mile north of town. After only five years of operation, the cannery at Icy Strait Point turned out 152,505 cases of one-pound cans of salmon, the largest pack ever achieved in Alaska.

Today, Hoonah is home to nearly 900 residents. Visitors will be intrigued by its rich Native heritage, opportunities to see wildlife and the vast wilderness that surrounds this unique village. Icy Strait's waters have yielded record-breaking halibut and salmon catches and provide summer-long access to all five species of salmon. Chichagof Island, on which Icy Strait Point is located, supports one of the largest concentrations of brown bears in the world and sightings are common.

Icy Strait Point tours are only available to Royal Princess passengers and Sea Princess passengers on the sailing departing on 6/11/2010.
