

## Ketchikan, Alaska

Ketchikan is known as Alaska's "First City" because it's the first major community travelers come to as they journey north. Located on an island, Ketchikan began life as an Indian fishing camp. The name Ketchikan comes from a Tlingit phrase that means "eagle with spread-out wings," a reference to a waterfall near town.

In the early 1900s, when gold was Alaska's claim to fame, fishing and timber industries were established in Ketchikan. The growth of these industries helped make this Inside Passage port Alaska's fourth-largest city.

Visitors to Ketchikan will be intrigued by its rich Native heritage, which includes the world's oldest collection of totem poles at Totem Heritage Center. The Haida, Tlingit and Tsimshian are all a part of the city's colorful history. Ketchikan, with its abundance of salmon, is also a sportfishing paradise. Sightseers will be impressed with both the scenic town and its surroundings, especially Misty Fjords National Monument.
